That sounds great. It would be at the Falmouth District Court. Our fax number here is (508) 457-4936, and it would be great if you could send the packet along. The address is: 161 Jones Road. Falmouth, MA 02540. There is a chance the case will plea, so I will keep you updated, and I'll let you know as I hear anything.

Thank you,
Ben

Hi Ben,

I will send the discovery packet to you this week. I have a case in Springfield District Court that day, and I do not know if I will be needed.

Hello,

I am the Cape and Islands ADA handling the above referenced case [REDACTED]. It looks like there were 2 different chemists that analyzed the 2 samples sent to the lab. The case is currently set for a jury trial on Tuesday 4/24. I realize this is short notice, so please let me know if this date does not work for either of you and I can reschedule ASAP. Also, could I please get the lab packets for both?

Thank you,
Ben
